

# CMI Qualification List

Version 11 (April 2026)

The tables below list CMI regulated qualifications. Each table consists of 6 columns: CMI Qualification Code, Qualification Accreditation Number (QAN), Qualification Title, Review Date, Operational End Date and Certification End Date.

The Review Date represents the date when the qualification will be reviewed by CMI. The purpose of the review is to validate whether the qualification (for example, units, assessment, resources) are still fit for purpose and meeting the needs of all stakeholders. This process normally occurs every 2-3 years or as a result of feedback, and/or significant industry or sector changes. **\*\*To note the Review Date does not in any way represent an 'end date' of the qualification, providers can continue to offer qualifications that are due or in the process of being reviewed\*\*.**

The Operational End Date (last date to register learners), and Certification End Date (last date to certificate learners) are only set once the decision has been made by CMI to withdraw a qualification(s). **\*\*If these dates have not been 'set', this indicates the qualification(s) will continue to be live for the foreseeable future\*\*.**

When CMI makes the decision to withdraw a qualification, Centres will be notified of the Operational End Date, and given a period of 12 months in which to register learners, and where applicable, plan and implement changes to deliver the replacement qualification. The Certification End Date will also be set at this time and will be set at a minimum of 3 to a maximum of 5 years after the Operational End Date. This is to enable existing learners who are registered on the qualification to complete and claim a certificate. All dates will be communicated to Centres through Partner Connect, and updated on this document. *Please ensure when using this document that you have the most current version.*
