

INTERNATIONAL CHARTERED MANAGER AWARD

JOSEPHAT SUA BSC (HONS) MBA
Managing Director,
Microbiology E.A Ltd

The skills acquired from becoming a Chartered Manager have given me the credibility and confidence to make both crucial and complicated Management and Leadership decisions.

“I decided to become a Chartered Manager to bridge my technical skills with Leadership and Management excellence. CMI could offer this excellence. Here in Kenya, there are so many well qualified doctors and medical professionals, but often have little managerial competencies and face many leadership challenges, so becoming Chartered was a great way to support my professional career.

I took the qualified route to become Chartered. I started to look for an internationally recognised management course, and came across University of Derby’s Bsc (Hons) in Business Management. The choice for this course was largely influenced by the fact that it was accredited by CMI and on graduation I achieved both the academic qualification and the international, professional recognition.

Becoming a Chartered Manager has allowed me to recognise my own Management and Leadership style. I feel that I can now confidently apply the proven management tools and frameworks to help me achieve my organisational goals. Treating employees as relationships and not tools to meet my company objectives is the main change I have implemented, and as a direct result I have noticed a huge increase in employee commitment and efficiency.

CMI is a globally recognised professional body, and has given me credibility in my authority as a Manager. Being part of an internationally recognised organisation demonstrates our commitment to better Management and Leadership, and I hope that others will see this and follow.

Josephat Sua is the Managing Director of Microbiology E.A Ltd and would wholly recommend becoming Chartered to others, explaining “This globally recognised accreditation sets the bar to benchmark my capabilities against, so I am constantly striving to be the best manager I can be.”
