## The Perfect Path to My Future Career.

**EMILY BELL, 23**  
SHIFT MANAGER, PIZZA HUT RESTAURANTS  
A CHARTERED MANAGER DEGREE APPRENTICE

**In September this year (2016) Emily will become part of the first round of Chartered Manager Degree Apprentices (CMDA) at Pizza Hut Restaurants.**

Emily previously studied Marine Biology and Oceanography at Plymouth University however soon realised this wasn't the right career path for her and decided to leave the course. Emily was working at **Pizza Hut Restaurants** at the time she learned about the CMDA.

**I knew as soon as I saw the opportunity to study the degree apprenticeship that it was a perfect path for me to develop my future career at Pizza Hut Restaurants.** I see this as a great way to learn while opening up further opportunities for my future. I have already begun training as a shift manager and know this programme will boost my results. On top of that I am getting a great opportunity to work at a leading company, gain a degree in Business Management and Leadership and become a fully qualified Chartered Manager.

Pizza Hut Restaurants is working alongside **Manchester Metropolitan University** to provide the course, which is part government-funded, and the firm is one of the first in the UK to adopt this apprenticeship programme.

**When you deliver great service you are making someone else's day better. You get back what you put in.** Some shifts will be harder than others, but if you're prepared to put in the effort, you will reap rewards. I'm looking forward to making the most of the opportunities that I'll gain from the degree apprenticeship, but I think that it's great for Pizza Hut Restaurants too; they are investing in their future leaders.

The new Chartered Manager Degree Apprenticeship has been developed by a group of 40 employers and universities, headed by **Serco** and supported by the **Chartered Management Institute**.
